### PACT PROFILE: JOINING

Sitting with someone when they are feeling strong (negative or positive) emotions and finding aspects of their experiences which you can genuinely relate to.

### TEAM DISCUSSION:

- Caseworkers: What are some ways you can make space through normal interactions or formal meetings with your families to join with what they are expressing? How can you join in what their needs are?
- Supervisors: How can you join your Workers in what they have been experiencing over the past week? How can you join in their perspectives and experiences?
